Summary

Aspiring MERN Stack Developer with a solid foundation in HTML, CSS, JavaScript, React, NEXT JS , Node.js, Express, and MongoDB. Skilled in building responsive, user-friendly, and dynamic web applications using modern frameworks and tools. Passionate about developing scalable solutions, optimizing performance, and collaborating on innovative projects in fast-paced environments.

Skills

Frontend Development: HTML, CSS, JavaScript, React.js, Tailwind CSS

Backend Development: Node.js , Express.js, Appwrite

Full-Stack / Frameworks: Next js

Database & Authentication: MongoDB, REST APIs, User Authentication

Programming & Problem Solving: C++, Data Structures & Algorithms (DSA), Competitive Programming

Tools & Platforms: Git, GitHub, Vite, Visual Studio Code

Other Skills: Responsive Web Design, Debugging, API Integration

Experience

Hack-O-NiT Overnight Hackathon

August 2025

Narula Institute of Technology — Team Project

Tech Stack: React, Tailwind CSS, Appwrite, MongoDB

- Built an **e-commerce web application** where sellers can upload products with descriptions and buyers can purchase them.
- Integrated **Appwrite authentication** for secure user login, registration, and session handling.
- Implemented a **MongoDB database** to manage products, users, and orders efficiently.
- Collaborated with a team of 4 members, focusing on reusable components, optimized API integration, and website performance.

Projects

E-Commerce Web Application | React, Tailwind CSS, Appwrite, MongoDB | [Live Demo](#)

- Developed a full-stack **e-commerce platform** with product uploads, secure checkout, and order management.
- Integrated **Appwrite authentication** for secure login, registration, and sessions.
- Optimized **MongoDB** for user data, product storage, and order tracking.
- Collaborated during **Hack-O-NiT** on reusable components and API optimization.

Syncplay - Watch Party App | React, Node.js, MongoDB, Socket.IO, Tailwind CSS | [Live Demo](#)

- Built a real-time **watch party platform** allowing multiple users to watch videos together in perfect sync.
- Integrated **Socket.IO** for low-latency communication to synchronize play, pause, seek, and live chat.
- Managed user rooms, video states, and chat messages efficiently using the **MERN stack**.

Namjap - Digital Japamala | React, Node.js, MongoDB, Tailwind CSS | [Live Demo](#)

- Developed a **digital Japamala** application to support meditative chanting with count tracking.
- Enabled users to maintain chant history and track long-term progress.
- Designed a calm and minimal UI using **Tailwind CSS** for a distraction-free experience.

Blog Website | React, Tailwind CSS | [Live Demo](#)

- Built a responsive **blogging platform** where users can read, explore, and interact with content.
- Implemented a clean UI with **Tailwind CSS** and efficient routing using **React Router**.
- Enhanced performance by optimizing reusable components and improving load speed.

Awards & Certifications

- **CodeChef 2 (2025):** Achieved a 2-star rating by solving multiple competitive programming problems. | [CodeChef account](#)
- **LeetCode 100 Days Badge (2025):** Earned a consistency badge by solving coding challenges for 100 consecutive days. | [Leetcode Profile](#)
- **HackerRank Problem Solving (Basic) Certificate (2025):** Certified for strong foundational problem-solving skills. | [HackerRank Profile](#)
- **Python Programming Certificate (2025):** Completed a structured Python programming course covering data structures and OOP.
- **Topper Award – Narula Institute of Technology (2025):** Secured **1st position** in class with a CGPA of **9.7/10**.
